Dear Mr. Loeb:

Thank you for taking the time to share information on this new project *Veterans Services of America inc.*. Taking the opportunity to reach out to our veterans and offer support so they can re-enter society in a productive manner speaks volumes to the meeting the needs of our service men and women.

Habitat for Humanity South Palm Beach is all about building lives, building dreams, and building communities. Our affiliate strongly supports the endeavors, of the *Veterans Services of America inc.*, and will be willing to help serve in any capacity your organization may deem necessary.

The housing crisis in Palm Beach County is at an all time high. Taking the opportunity to provide group housing for the service men and women who are in transition and providing medical support, vocational training, counseling and long-term housing is an admirable goal.

Habitat for Humanity South Palm Beach is excited about the opportunity to collaborate with the *Veterans Services of America Inc.*. Thank you for the opportunity.

Sincerely,

Michael E. Campbell
Executive Director
