To Whom It May Concern:

I understand that Mr. Daniel Margolis is opening a Homeless Shelter on 1st in West Palm Beach to increase quality of life opportunities for 18 economically disadvantaged homeless veterans. This initiative will not only add to the areas existing support network of non-profits serving the homeless but enable area veterans county-wide to enjoy life and learning through innovative services.

To assist in the sustainability of this facility, a designee from this office will provide on-going leads on open grant solicitations that run parallel to their mission.

I commend Mr. Margolis on his continuing collaboration with area social service agencies to develop unique programming to assist area veterans. Therefore I endorse his opening of a homeless facility request, an investment that will have widespread benefits.

Respectfully,
